# Shyam Mohan V M

#### **Data Engineer**

Bangalore, India | shyammohanvm@gmail.com | +91-7034830977 | linkedin.com/in/shyammohanvm

## Summary

-content-

#### Skills

• Programming: Python, SQL, Java, C/C++

• Data Engineering: Airflow, UC4, Snowflake

• Frameworks: Django, Streamlit

• Databases: MySQL, PostgreSQL

• Cloud & DevOps: AWS, GCP, Git, Docker, Kubernetes

## Experience

Analyst (Data Engineering role)

Factspan Analytics, Bangalore

Jan 2024 - Present

- Designed and maintained scalable ETL pipelines for a global entertainment leader, using Python, Airflow, UC4, AWS, and Snowflake, to process terabytes of real-time data from diverse sources.
- Migrated legacy data warehouses to Snowflake, boosting query performance and scalability.
- Developed automated data quality checks and development workflows, reducing manual effort by 50%.
- Leveraged internal enterprise data platform architecture to orchestrate deployments, enable CI/CD workflows, and streamline data engineering operations.
- Recognitions & Awards:
  - Learning Champ for outstanding performance in training initiatives.
  - Sweat the Details for driving leading innovations and delivering exceptional quality.
  - Spot Award for critical contributions to a high-impact project.
